 0  
[Check out our leaderboard](#)

Multi-scanning, also known as multiscanning, is an advanced threat detection and prevention technology that increases detection rates, decreases outbreak detection times and provides resiliency to anti-malware vendor issues. OPSWAT pioneered the concept of multi-scanning files with over 30 anti-malware engines available to deliver enhanced protection from a variety of cyber threats. [Read more ...](#)

ENGINE	SCAN TIME	LAST UPDATED	RESULT
Jiangmin	1900 ms	2019-12-09	<span style="color: red;">FALSE POSITIVE -----&gt;</span> Trojan.Invader.cem <span style="color: red;">✘</span>
AegisLab	1342 ms	2019-12-09	<span style="color: green;">✔</span>
